Sir:

AMENDMENT AND RESPONSE UNDER 37 C.F.R. § 1.116

On August 23, 2010, the undersigned discussed with Examiner Paul W. Dickinson the Advisory Action mailed August 10, 2010, which states that "The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered" See Advisory Action. During the August 23, 2010, discussion, the undersigned explained that no claim amendments were filed after the Final Office Action and that the previous claim amendments had been filed after the non-final Office Action and should be entered. Examiner Dickinson requested that Applicants submit another

copy of the previously filed Amendment and Response under 37 C.F.R. § 1.116, but to include one additional paragraph specifically showing the support for the amendments to the specification. Accordingly, Applicants are submitting this paper, which is identical to the Amendment and Response under 37 C.F.R. § 1.116 filed on July 28, 2010, but for the paragraph requested by the Examiner.

The period for responding to the final Office Action has been extended to August 30, 2010 (as August 28, 2010, falls on a Saturday) by a Petition for Extension of Time and fee filed concurrently herewith. Applicants respectfully request reconsideration of this application in view of the following amendments and remarks.

Amendments to the Specification begin at page 3 of this paper.

Remarks are presented at page 4 of this paper.
